**Dance Steps Company
Information Sheet**

The Audition: *If you would like to be a part of Dance Steps Company we ask that you go through our audition process. There is no need to prepare for the audition. During the audition we will ask the dancers to show some new and some old steps; we look at flexibility, musicality, strength, co-ordination and performance. We understand that this may be your first experience at an audition, no need to worry just try your best, smile and show us how much you enjoy your dancing. If you do not know the steps that we are showing you - do not worry, we may just be looking to see how well you pick up new steps - we will have lots of time to teach you the steps if you get into Dance Steps Company. A positive attitude, excellent work habits, and desire to dance are just as important as talent and technique. Not everyone will make it into Dance Steps Company. Please do not audition if you do not want to be a part of our Company or Pre Company.*

Parents: *There are a lot of demands placed on Dance Steps Company dancers, physically with the athletic component of dance as well as psychologically, with the performance component of dance. Company dancers will be challenged and motivated to work to their maximum. If you have an enthusiastic child that is auditioning but you have concerns that the demands of our Company may not be for them, please let us know before they audition (or call us after) so we do not hold a spot that would otherwise be available to another dancer.*
